**This is confidential information and once completed this document needs to be sealed in the envelope provided.
This will only be opened by SARC staff**

Consent to participate on Project Goldcrest

Section A: About You

Full Name:			
Date of Birth:		Phone:	
Address:			
Email:			
SAFE Box Number :			

Section B: Consent

I give consent to participate in Project Goldcrest and understand that the police will be provided with my samples and the Information sheet that I have completed. I understand that the police will not know my name and will only have the SAFE number provided on the sheet. I understand that the police will retain my samples upto 25 years to allow me time to decide if I want to support a police investigation about what has happened to me.

Signature :		Date:

Project Goldcrest Consent Form

I give consent for the samples to be tested by the police to identify the perpetrator. I understand that my DNA elimination sample that I have provided **will not** be uploaded onto the national database and **will not** be checked against any crime scene and will be only used to eliminate my DNA from the perpetrator’s DNA. I also understand that the police will destroy my elimination DNA after 6 months from the date of it being taken.

Signature :		Date:	
--------------------	--	--------------	--

I understand that if I do not consent to the samples being tested and that there has been a risk identified so great that a person (including myself) is in grave danger then this non-consent can be over ridden.

Health

I give consent for a nurse or staff member at the SARC to contact me and to discuss sexual health and welfare.
